# ABOUT THE EVENT

After the tremendous success of our previous edition, we are thrilled to invite you to the “[2<sup>nd</sup> Edition of International Conference on Analytical and Bio analytical Techniques](#)” (Hybrid Event) which will take place on [September 14-16, 2023](#) at [Valencia, Spain](#).

Bioanalytica 2023 with the theme “*Exploring Progressive Lookups in Analytical and Bio Analytical Techniques*” serves as an international platform for information dissemination, advancing theoretical and practical concerns in this field.

There will be world’s most sought-after Keynote speakers, academicians, scientists, chemists, biotechnologists, pharmacists, analysts, young researchers and experts in their field at the congress. In addition, the event will feature a number of oral and poster presentations. This conference will be one of the largest international gatherings devoted solely to recent advances and future trends in Analytical and Bio analytical Techniques.

We understand that writing abstracts and finishing a research work is challenging. During these tough times we are here to support you and your research work. We invite experts in Bio-analytical Experts, Analysts, and other related fields from around the world to submit their articles.

We are looking forward to seeing you in the event and making it successful with your participation.
