3rd Edition of International
CANCER CONFERENCE

SEPTEMBER 23-25, 2019
LONDON, UK

Cancer Free World- Possible or Not

https://magnusconferences.com/cancer-oncology/
Keynote Presentations

Title: Towards early stage detection of ovarian cancer
Michael Thompson, University of Toronto, Canada

Title: The role of Androgen Receptor (AR) in breast cancer
Elias, Anthony D, University of Colorado Denver, USA

Title: Investigating adverse health risks from vaccine cell lines, adventitious contaminants and certain ingredients
Sherri J. Tenpenny, Tenpenny Integrative Medical Center, USA

Title: Is it fair calling LDCT lung cancer screening a failure? Why are less than 2% of those eligible getting screened?
Mark S. Parker, VCU Medical Center, USA

Title: Dept of medical oncology in ancona: A new model of integrated care pathways for a multidisciplinary management for cancer patients
Rossana Berardi, Universita Politecnica delle Marche, Italy

Title: A Microfluidic Invasion Network Device (MIND) for diagnosis, prognosis and precision care of cancer patients
Konstantinos Konstantopoulos, Johns Hopkins University, USA

Title: Personalized oncologic medicine in children: Current status and future promises
Atif A. Ahmed, Children’s Mercy Hospitals and Clinics, USA

Title: Roles of Fusion Genes in Human Cancers
Jianhua Luo, University of Pittsburgh, USA

Title: Rural cancer awareness and early detection initiative (RCAEDI)
Darshit Arunbhai Thaker, Queensland Health, Australia

Title: Radiation and nuclear technologies used in medicine: Problems in quantifying personal exposure and associated risk
Jozef Sabol, Department of Crisia Management, PACR, Czech Republic

Title: Mechanism of apoptotic Death Inducing Signaling Complex (DISC) formation and its therapeutic implications
Kakoli Bose, ACTREC, Tata Memorial Centre, India

Oral Presentations

Title: Neoadjuvant immunotherapy before surgery in the management of head and neck squamous cell cancer
Mercedes Porosnicu, Wake Forest University School of Medicine, USA

Title: Towards optimum immunotherapy
Angus Dalgleish, St. George’s University of London, UK
Title: Use of microRNAs as biomarkers in cancer patients  
Jens Claus Hahne, The Institute of Cancer Research, UK

Title: It's about time: Wire-free localization of positive axillary lymph nodes prior to neoadjuvant therapy may offer an option to simplify and de-escalate axillary management  
Mary K. Hayes, Memorial Healthcare System, USA

Title: Percutaneous tumour ablation myth and the reality - Where are we now?  
Paras Dalal, Royal Brompton Hospital, UK

Title: The impact of gamma-irradiation on the induction of bystander killing by genetically engineered ovarian tumor cells: Implications for clinical use as cancer vaccines  
Jehad Zweiri, University of Liverpool-Medical School, UK

Title: The evidence of minimally invasive techniques in cancer surgery  
Panagis M Lykoudis, University College London, UK

Title: Advanced 3D in vitro cancer models, their advantages and limitations in real-world research  
Anthony Mitchell Davies, Vale Life Sciences, Brisbane, Australia

Title: Ethnic differences in genetic immunity to cancer  
Sergey N. Rumyantsev, Andent Inc, USA

Title: The development of a novel therapeutic strategy for the treatment of prostate cancer by targeting metabolic signalling  
Amna Alafi, University of Essex, UK

Title: Diagnosis and treatment of anastomotic leakages in colorectal cancer  
Giovanni Milito, University Hospital of Tor Vergata, Italy

Title: Clinical perspectives of detecting circulating cancer cells in patients with lung cancer  
Vladimir Anikin, Harefield Hospital, UK

Title: Implementing a highly accessible model of screening and assessment in geriatric oncology: Our experience  
Darshit Arunbhui Thaker, Queensland Health, Australia

Title: Progress in the treatment of advanced gastric cancer  
Maria Maddalena Laterza, University of Campania Luigi Vanvitelli, Italy

Title: Tackling the challenges of multidisciplinary comprehensive cancer care  
Panagis M Lykoudis, University College London, UK
Title: Combining biomarkers with imaging – it is the future of early detection?  
Hayley C Whitaker, University College London, UK

Title: Can prostate cancer originate in utero? Prostate carcinogenesis induced by maternal low protein diet in older offspring  
Sergio Alexandre Alcantara Dos Santos, Sao Paulo State University, Brazil

Title: Endogenous toxicology and cancer  
Mauro Luisetto, University of Turin & University of Pavia, Italy

Title: Inverse microRNA signatures in Alzheimer’s disease and cancer: A diagnostic perspective  
Urszula Wojda, Nencki Institute of Experimental Biology of Polish Academy of Sciences, Poland

Title: Protein induced by vitamin K absence (PIVKA-II) in the hepatocellular carcinoma (HCC) diagnostics  
Radek Kucera, University Hospital in Pilsen, Czech Republic

Title: Immunotherapy of solid tumor with the third generation of TCR-T TAEST16001  
Yi Li, Guangdong Xiangxue Life Sciences Ltd, China

Title: The Number Lung Cancer Cases Caused by Radon in Belarus Assessment  
Leanid Chunikhin, Institute of Radibiology NSA, Belarus

Title: Epigenomic and functional characterization of junctophilin 3 (JPH3) as a novel tumor suppressor in digestive cancers  
Xiaotong Hu, Zhejiang University, China

Title: Utilizing nano-cubosomes in cancer treatment  
Mona Magdy Saber, Cairo university, Egypt

Title: Preoperative neutrophil-to-lymphocyte ratio is a predictor of survival of epithelial ovarian cancer: A systematic review and meta-analysis of observational studies  
Zhuo Yang, Shengjing Hospital of China Medical University, China

Title: The value of microendocolposcopy in the diagnosis of cervical precancerous lesions  
Fang Li, Tongji University, China

Title: Utility of Pap Smears Screening in the detection of Cervical Neoplasia  
Saritha Karre, ESIC Medical College & Hospital, India

Title: Study of the epidemiological profile of prostate cancer in the Mohammed VI center for the treatment of cancers  
Salmi Fatiha, University Hassan II of Casablanca, Morocco
Title: A preliminary examination for mechanisms of action and the genes involved in the actions of AKBA in ovarian cancer cell lines
Kamla Khalfan Said Al Salmani, National Genetic Center, Royal Hospital, Oman

Title: Latest developments in the diagnosis and investigation of multiple myeloma
Janin Alant, Sefako Makgatho Health Sciences University, South Africa

Title: Extending breast health education & screening activities in Ghanaian communities
Isaac Ewuah Mensah, Peace And Love Hospitals, Ghana

Speaker Slots Available

Park Inn by Radisson Hotel & Conference Centre London Heathrow
Airport Bath Road, Heathrow, Middlesex. UB7 0DU London, UK

Conference Dates: September 23-25, 2019
