ABOUT US

Magnus Group solicits your gracious presence at its **“7th Edition of International Cancer Conference”** (ICC2024) scheduled as **HYBRID EVENT** in **Baltimore, Maryland, USA** during **October 17-19, 2024**. The congress will deliberate on the theme **“Stretching Wings to Fight Cancer through Unified Research Approaches.”** The global cancer burden increased to 19.3 million cases and 10 million deaths in 2020, according to new estimates from the International Agency for Research on Cancer’s Global Cancer Observatory, and is expected to rise to more than 30 million cases and over 16 million deaths by 2040, with the majority of the increases occurring in low- and middle-income countries. Cancer incidence and mortality are increasing globally due to ageing populations, a shortage of cancer

specialists, medicines, obesity, and lifestyle choices (including smoking and alcohol use). This three-day conference will provide a timely opportunity to hear from, learn from, and interact with some of the World’s finest oncology professionals while networking with like-minded peers. The agenda of the ICC 2024 is to promote discoveries, experts, keynote sessions, oral and poster presentations. We’ve invited some of the world’s most influential speakers including researchers, scientists, oncologists, cancer specialists, pharmacists, clinicians, academicians, young scholars, healthcare professionals, policymakers and industry representatives to provide motivational presentations and workshops. Join us at ICC 2024 for an interactive environment aimed at improving cancer patient outcome.
