September 18, 2020

12:00-12:10

Introduction

Keynote Presentations

Webinar
Time Zone

Speakers
Time Zone

12:10-13:00

17:40-18:30

Title: Application of chemical technology & chemistry to control earth's global warming

Virendra Kumar, Prof. Emeritus & Advocate, India

13:00-13:50

07:00-07:50

Title: The built environment and climate change: The path to net zero and neutral built infrastructure

Azzeddine Oudjehane, SAIT, Canada

13:50-14:40

09:50-10:40

Title: Implementing low-carbon built environment solutions at scale and speed

Terry Cooke, China Partnership of Greater Philadelphia, USA

Oral Presentations

14:40-15:05

9:40-10:05

Title: Six-Step guide for making nature-based infrastructure decisions comparing the benefits of multiple ecosystem services

Deborah January-Bevers, Houston Wilderness, USA

15:05-15:30

17:05-17:30

Title: Development, economic growth, and species endangerment

Joeri Sol, University of Amsterdam, Netherland

15:30-15:55

21:00-21:25

Title: A frequency domain approach to the surface temperature and a statistical elucidation of its association with total ozone concentration

Surajit Chattopadhyay, Amity University, India

15:55-16:20

18:55-19:20

Title: Contrasting eco-geomorphological responses to climatic changes, during the Upper Pleistocene and Holocene periods, in the South Eastern Mediterranean area.

Aaron Yair, Hebrew University of Jerusalem, Israel

16:20-16:45

18:20-18:45

Title: Human-induced ground albedo increasing: How does it affect climate change?

Emanuele Calabro, University of Messina, Italy

16:45-17:10	13:45-14:10	Title: Can climate models predict new deep reef refuges Umberto Diego Rodrigues de Oliveira , Rural Federal University of Pernambuco, Brazil
17:10-17:35	00:10-00:35	Title: Maritime disaster in outermost Island as threat of sovereignty and national maritime security in the international law perspective Agung Imam Zulhatta , Indonesia Defense University & Researcher at Indonesia Institute for Maritime Studies(IIMS), Indonesia
17:35-18:00	20:35-21:00	Title: Population, climate change and sustainable development in Asia Ngunjiri Ndirangu , University of Nairobi, Kenya
18:00-18:25	18:00-18:25	Title: Extreme changes of daily rainfall and temperature patterns in a tropical sub-humid basin: A statistical downscaling assessment for the 21st century Enoch Bessah , Kwame Nkrumah University of Science and Technology, Ghana

■ Poster Presentations

18:25-18:35	20:25-20:35	Title: Impact of future climate changes on arbuscular mycorrhizal communities under organic vs. conventional agricultural management systems Sara Fareed Mohamed Wahdan , Helmholtz center for environmental research, Germany
