

Euro Global Climate Change Conference 2021

September 20-21, 2021 | Paris, France

TENTATIVE PROGRAM

Theme: Climate Change Prevention Processes, Methodologies, and Technologies

| Email: climate@magnus-meeting.com

| Website: <https://magnusconferences.com/climate-change>

TENTATIVE PROGRAM

Keynote Presentations

Title: Climate Policy: Lessons learned from around the world

Sandra J Garren, Hofstra University, USA

Title: The zero waste approach to resource management

Richard V Anthony, Zero Waste International Alliance, USA

Title: The innovation path to a climate positive built environment and resilient cities

Azzeddine Oudjehane, Southern Alberta Institute of Technology, Canada

Title: Highly efficient thermoelectronic conversion of solar energy and heat into electric power with special consideration for the integration and use of graphene membranes with the hydrogen

Hector M Guevara, Nuenergy Technologies Corp, USA

Title: Carbon free supported noble metal nanostructures for green energy production

Nevenka Elezovic, University of Belgrade, Serbia

Title: Impact of future climate changes on Arbuscular Mycorrhizal communities under organic vs conventional agricultural management systems

Sara Fareed Mohamed Wahdan, Helmholtz Center for Environmental Research, Germany

TENTATIVE PROGRAM

Oral Presentations

Title: Six-step guide for making nature-based infrastructure decisions comparing the benefits of multiple ecosystem services

Deborah January Bevers, Houston Wilderness, USA

Title: Environmental impacts of shale gas extraction: Example of Northeastern British Columbia, Canada

Romain Chesnaux, Universite Du Quebec A Chicoutimi, Canada

Title: Disaster management

Shay Bahramirad, Comed, USA

Title: Evolution and forecasts of global renewable energy deployment

Abhishek Asthana, Sheffield Hallam University, UK

Title: An improved emission inventory method for estimating engine exhaust emissions from ships

Sanaz Jahangiri, University of Tasmania, Australia

Title: How to comply with the Paris agreement: Global carbon pricing according to carbon budgets

Hermann Pengg, Audi Ag, Germany

Title: Impact of climate change on labour markets and women's poverty in Bolivia

Luis Enrique Escalante Ochoa, Normandy University, France

TENTATIVE PROGRAM

Title: Climate change an unfold and untold crisis on women reproductive health in the south coast region of Bangladesh

Reazul Ahsan, University of Utah, South Korea

Title: Role of Russian boreal forests in climate change mitigation: Underestimation of the sequestration capacity

Andrey Filipchuk, Federal Forestry Agency, Russia

Title: Climate change management in a developing country: Lessons from the perspective of agricultural value chains

Nqobizitha Dube, National University of Science and Technology, Zimbabwe

Title: Rapid arctic warming and its link to the strength of westerly Jet stream over West Asia

Omid Alizadeh Choobari, University of Tehran, Iran

Title: The sanitary impact of air pollution in North Africa

Terniche, Algiers University, Algeria

Oral Presentation slots available

TENTATIVE PROGRAM

Poster Presentations

Title: Building climate transition pathways on social transition

Arnaud Diemer, University Clermont Auvergne, France

Title: Global warming effects and causes

Emmanuel Amos Chilagane, Agricultural Research Officer, Tanzania

Title: Soil microbiota community response to altered meteorological patterns in a temperate continental forests from Romania

Kovacs Eموke Dalma, Research Institute for Analytical instrumentation, Romania

Title: Climate change related rainfall pattern anomalies impact on surface water chemical and microbial quality

Kovacs Melinda Haydee, Research Institute for Analytical Instrumentation, Romania

Poster Presentation slots available
