ABOUT THE EVENT

After the tremendous success of our previous editions, we are thrilled to invite you to the “**3rd Edition of European Lasers, Photonics and Optics Technologies Summit**” Online Event which will take place on **September 25-27, 2023** in Online Format.

ELOS 2023 with the theme “*Eyeing Progressions and gathering insights in Lasers, Photonics and Optics Technologies*” serves as an international platform for information dissemination, advancing theoretical and practical concerns in this field.

There will be world’s most sought-after Keynote speakers, academicians, scientists, opticians, laser experts, healthcare professionals, young researchers and experts in their field at the congress. In addition, the event will feature a number of oral and poster presentations. This conference will be one of the largest international gatherings devoted solely to recent advances and future trends in optics, photonics, lasers, and their applications.

We understand that writing abstracts and finishing a research work is challenging. During these tough times we are here to support you and your research work. We invite experts in optics, photonics, lasers, and other related fields from around the world to submit their articles.

We are looking forward to seeing you in the event and making it successful with your participation.
