Conference Topics:

- Biomarkers and Precision Medicine
- Translational Informatics
- Regulatory Affairs
- Product Development and Commercialization Challenges
- Disease Prevention Strategies and Medical Treatments
- Patient-Centered Care
- Pharmacogenomics and Precision Medicine
- Precision Immunotherapy
- Big Data for Precision Medicine
- Companion Diagnostics in Precision Medicine
- Theragnosis
- Ethics in precision medicine
- Personalized therapies
- Precision diagnostics
- Wearable technology: Precision Medicine
- Artificial intelligence: Precision medicine
- Precision medicine in guiding clinical trials
- Precision Public Health
- Diversity in Precision Medicine
- Gene Editing, Microbiome and Neoantigens

Registration: Registration for the conference includes access to all scientific sessions, poster sessions, exhibitions, an extended abstract booklet & Conference Materials, Breakfast, Lunch, tea / coffee breaks during conference dates, Certificate Accreditation from the Organizing Committee.
